Weird things are happening to Todd at his job. He knows what to do for people who arrive at the hospital before he ever examines them, and when a terrible trauma case comes in with an extra serving of monster on the side, Todd is able to protect the girl, and his co-workers, with what seems like a dose of real magic. Connor doesn't know why he's drawn to Todd's hospital until he sees the magic at work. Then he knows he has to introduce Todd to a whole world that Todd never knew existed, one of immortal beings, ancient prophecies, and an attraction that neither one can deny. Connor tries to let Todd go over and over, but he just can't do it. He knows he has to help keep Todd safe at all costs, even if it means facing the most dangerous being ever created. Can Connor and Todd face their demons, and their love, head on?
