Are you looking to lose some weight, get rid of that belly fat or try to fit into that suit/dress that you purchased 6 months ago? If you are thinking about starting a diet, here are some facts Diets will destroy your body, thats a fact. Your body will produce billions of new fat cells when you diet. Your relationship with food will be an unhealthy one You will be hungry, miserable, tired, and moody You will destroy your metabolism There is however an alternative and safe way to lose weight, and thats to walk Why walk Walking is simple, free and one of the easiest ways to get more active, lose weight and become healthier. Walking, like most aerobic exercises, is good for you because walking strengthens the heart and lungs, boosting overall fitness. Walking strengthens bones. Walking improves the bodys cardiovascular system. Walking also helps increase blood circulation. Walking is a great exercise for people of all ages and fitness levels. Walking raises your mood by reducing stress, anxiety and depression. Walking helps improve your balance and coordination. Walking is also a low impact exercise, which does not have the same potential for injury as jogging, but does allow you all the benefits of jogging. Dont be one of these people that fall into the diet trap; dont ruin your life for an unattainable dream. The answer to permanent fat loss is in this book, buy it, read it and apply the knowledge. This book will show you why diets dont work; it will show you the only correct way to lose fat permanently without diets or fads.
