

The Way To Live: In Health and Physical Fitness (Original Version, Restored)

Some trainers recommend to their pupils for the training of all muscle groups one and the same (light) weight and believe they are able to obtain the same effect by frequent repetitions. My experience has taught me that this is wrong, for the muscles of men or animals who are distinguished for certain feats of endurance are by no means over-developed. A long-distance runner or long-distance cyclist always has comparatively thin legs, as have a racehorse, stag, or greyhound. Nature does not act without aim and purpose. Hence there is a great difference between feats of endurance and feats of strength. One must consider that, although it is quite possible to enlarge muscles by certain light, prolonged exercises, at the same time the development of the sinews may be neglected, and it is the sinews which transport the action of the muscles to the bone xframe. The sinews can only be exercised and strengthened by correspondingly heavy muscle work. Besides, to take a paradoxical example, it is quite impossible to improve strong muscle groups, as, for instance, the hip muscles, with light-weight exercises. A further illustration of the fallacy of attempting to develop the muscles by frequent repetitions with the same light exercises may be found in a comparison with any and every other form of athletics, in which a man would never think of merely repeating his training programme. In order to improve himself either in pace or distance, he must set himself a steady progression of arduous effort. - George Hackenschmidt This is an original version, restored and re-formatted edition of Hackenschmidts 1908 classic. attorneys provide exceptional representation in CRIMINAL, DUI and PROFESSIONAL LICENSE DEFENSE. Our firm provides aggressive representation, individualized attention, and exceptional skill, all at a reasonable price. We Fight To Preserve Your Rights In a civil case the plaintiff carries the burden of proof and must demonstrate their version of the facts to be true by a preponderance of evidence. However, a criminal defendant is presumed innocent until proven guilty beyond a reasonable doubt. Thus, the burden of proof is very high for the prosecutor in criminal cases, thus you should contact our Phoenix Criminal Defense Attorneys as soon as possible. Aggressively Representing Businesses, Employees, and Individuals in Arizona Our clients range from accountants to physicians to nurses and every other profession in between.
