

Green Manufacturing: Case Studies in Leadership and Improvement (Enterprise Excellence)

No manufacturer can afford to ignore the pressing environmental issues of today. To do so puts both their profit line and their legacy at risk. As part of the Enterprise Excellence Series, this book brings together articles and case studies covering environmental, and energy issues that were previously published in the Association of Manufacturing Excellences Target Magazine. It covers both areas of moral responsibility, as well as legal and economic considerations. Chapters are organized in three areas: Protecting the Environment, Using Energy Wisely, and EPA Case Studies, making it easy to track down the information desire.
