

Perspectives on Memory Research (PLE:Memory): Essays in Honor of Uppsala University's 500th Anniversary (Psychology Library Editions: Memory)

Originally published in 1979, this book contains papers presented at a conference held in 1977 to celebrate the 500th anniversary of the University of Uppsala. Beyond the commemoration, the main reason for this conference was to get students of memory together to discuss and evaluate the memory research that had already been carried out, was presently underway and to speculate about the type of research in this area that would be carried out in the future. The contributors were specifically asked to concentrate on overall theoretical and metatheoretical questions at the cost of empirical problems. With chapters from many of the leading experts in the field this is an opportunity to enjoy some of their early insights.
