

Control Engineering and Electronics Engineering (Wit Transactions on Engineering Sciences)

The 2014 International Conference on Control Engineering and Electronics Engineering (CCEEE 2014), held in Chengdu, China, was one of the leading international conferences for presenting novel and fundamental advances in the fields of Control Engineering and Electronics Engineering. Containing the proceedings of the conference this book serves to disseminate the latest work of researchers and practitioners from around the world relating to their common interest in improving Control Engineering and Electronics Engineering techniques. Topics covered relate to the main subject areas of: Electronics, Control and Signal Processing; Electrical machines; Electromagnetics; Control Systems, Technology, and Applications; Communications Engineering; Innovative Networking Technologies; Signal Processing.
