

The Masks Of Tarot

This is something NEW! A method of reading Tarot, using meanings you are already familiar with, that will allow you to give precise and eerily accurate readings to people easily, and with startling depth. There is more thought-through Scott's unique Mask Theory, sound spiritual principles and methods that have been written about by therapists and counselors, you can use these ideas with many other systems! Imagine noticing a person's hands, and giving them an on-the-spot reading that is based on solid principles and goes far beyond anything you have been able to offer before. In this book, Scott delivers tools that will dramatically and successfully change your Tarot readings, palm readings, personality analyses, and more. Scott uses some of these same techniques in his Thinking Magically seminars because the concepts you will be learning go far beyond the confines of a mere performance. In this unique Hiding Places Spread and Masks System, your client goes beyond a mere listener and sitter, but actively participates in the reading. She or he will not only gain valuable insights into themselves, but will learn ways to USE those insights to make the adjustments they need as they travel through their path. With a Foreword by well-known Author, Richard Webster- The Masks Of Tarot will bring new layers to the readings of experienced readers, and provide special tools to jump start new students as well!
